

# INNOVATIVE DRIVE TECHNOLOGY

For a superior deep cleaning performance thanks to 40,000\* sonic movements and the hydrodynamic effect, they generate.

3 Cleaning modes

Time Control

Visual pressure control

\* For «Sensitive» cleaning mode: Due to the technical set-up, deviations of +/- 2% may occur.

## TRISA Sonic Ultimate replacement brush heads

With particularly fine bristles ensure gentle and at the same time thorough cleaning. Thanks to the compact and thin shape of the brush head, even hard-to-reach areas can be easily reached.

Replacement brush heads suitable for:

Recommended by Swiss dentists. Developed and produced in Switzerland.

Finest Swiss Oral Care 

**40'000**

Hydro Clean Movements

After every 30 seconds, the automatic **TIME CONTROL** signalizes to move on to the next area of teeth. After two minutes, a longer interruption indicates that the cleaning time recommended by dentists has been reached. For a consistent brushing time.

**ON/OFF** 

**CLEAN**

For a very efficient cleaning of tooth surfaces and interdental spaces.

**SENSITIVE**

For a gentle tooth cleaning and a pleasant stimulation of the gums.

**WHITE**

For the conservation of natural tooth whiteness.

**RECHARGEABLE**

One battery charge lasts for an extra-long service time of up to 2 weeks (2 x 2 minutes per day).

Worldwide use thanks to the automatic voltage adjustment (100–240 volts).

Gentle cleaning due to **CONTROL FUNCTION**: If the pressure on the teeth is too high, the display in the cover lights up red. Reduce the pressure on the teeth until the light goes out.

-  3 Reinigungsmodi / 3 Cleaning modes
-  4. Ausdauern-Timer / 4. Timer control
-  Visuelle Antriebskontrolle / Visual pressure control!
